<Economic Capital>

The Group sets economic capital allocation amount after reserving capital buffer adequately resists financial stress under Tier 1 capital, and accordingly allocates such capital toward major Group companies.

In assessing the capital adequacy, the Group monitors capital requirements based on the aggregated level of each Group company against the economic capital allocated to them.

Economic capital allocated toward major companies is set with reflecting historical risk amount, business plans, budget, and others. Capital adequacy is assessed by confirming and quantifying if the risk amount held by the Group companies as a result of their business activities falls within the range of allocated capital.

<Regulatory Capital>

The Group monitors regulatory capital against the alert level which is set well above the minimum regulatory capital ratio, sets alert level for internal management to evaluate the capital adequacy periodically.

3. Credit Risk

A). Overview of risk management policies and procedures

<Credit Risk Management Policy>

The credit risks generated in the trading business of Daiwa consists of counterparty risk and issuer risk. On the counterparty risk, Daiwa has established the credit limits based on ratings of counterparties in advance and monitored notional principals and credit amounts. In addition, concerning the issuer risk of financial instruments held in the trading business, Daiwa has established the upper limit of holding and the holding period in accordance with each issuer's category and credit rating in relation to the relevant financial instruments, and monitored the circumstances of holding them. Moreover, Daiwa is periodically monitoring the influence from the large-lot credit.

<Allowance for Doubtful Account>

In order to prepare for the loss from bad debts on loan and others, allowance for doubtful accounts are provided for probable losses on loans and receivables, based on the actual historical default rate for normal claims, and based on individually assessed amounts for doubtful and default loans.

4. Overview of Policy and Procedure for the Credit Risk Mitigation Techniques

<The policy of Credit Risk Mitigation Techniques>

Collateral is used for the Credit Risk Mitigation Techniques (hereunder CRM Techniques). Types of collaterals are generally cash or high liquid securities. Received collateral is valued mark to market daily and monitored against exposures. In addition, balance and type of collaterals taken are also subject to the monitoring.

For derivative and repo transactions, bilateral netting agreements are generally set. For transaction where legally enforceable bilateral netting arrangement exists, the CRM Techniques are applied.

The Group uses the Comprehensive Approach for the CRM Techniques.

5. Overview of Policies and Procedures for the Counterparty Credit Risk Management of Derivative and Long Settlement Transactions

For derivative transactions, credit review of counterparty is conducted in advance, and credit limit is assigned when the credit soundness is confirmed. Exposure amount and collateral value are calculated and compared daily; accordingly, collateral is pledged or accepted. Likewise, for long settlement transactions, credit review of counterparty is required and transaction can only be conducted if the credit limit is assigned.

Credit limits of the counterparty are reviewed periodically. In addition, for uncollateralized exposures, allowance amount is calculated based upon allowance percentage that is set in accordance with the Group's internal credit rating and maturity of transaction.

Risk capital is allocated based upon the credit VaR, and reviewed semiannually. Upon the time when own credit rating downgraded, additional collateral will be required. The Group carefully monitors the additional collateral amount and accordingly, such amount falls into the allowable level.

6. Securitization Exposures

8. Operational Risk

A). Risk management policies and procedures

As the Group's business becomes more sophisticated, diversified, and systemized, the accompanying risks become more varied, and as a result the need to manage such operational risk grows each year. The Group's major subsidiary companies engage in RCSA (Risk Control Self Assessment) in compliance with operational risk management rule, and adequately manage operational risk. In addition, due to the diversifying nature of its business, the Group also sets rigid rules concerning authority, automates office work processes to reduce human error, prepares business manuals, and takes other necessary measures. Each Group company strives to reduce operational risk according to the nature of its own business.

B). Methods for the calculation of operational risk amount

The Basic Indicator Approach is used for the calculation of operational risk amount.

9. Overview of Risk Management Policy and Procedure for Equity Exposure on Non Trading Accounts

In addition to trading businesses, the Group possesses investment securities for investment as well as business relation purposes. Because those financial instruments have distinct risk profiles for each product, the Group conducts adequate credit as well as market risk managements including measurement of risk by the profile.

For the consolidated subsidiaries, the scopes of the risk management are assets and liabilities. For the affiliated companies, the scopes of the risk management are equity exposures. Those are subject to the risk management in each classification.

Also, marketable available-for-sale securities are stated at their fair values based on quoted market consolidated closing prices (the unrealized gain or loss is fully recognized, and the cost of products sold is mainly pursuant to moving average method). Non-marketable available-for-sale securities are carried at cost by moving average method.

10. Interest Rate Risk under Non Trading Accounts

A). Overview of risk management policies and procedures

In regard to non trading accounts of the Group, most interest rate risk arises from the assets and liabilities held by Daiwa Next Bank, Ltd.

Daiwa Next Bank, Ltd. complies with management rules of market risk and manages the risk of incurring losses from changes in the value of assets and liabilities or in the net incomes.

Middle and back offices, which are independent from front office, are set, and it acts as a system of checks and balances. In addition, the ALM committee is periodically held and discussed regarding the management and operation of market and liquidity risks as well as the management of assets, liabilities, and capital efficiencies.

B). Overview of management's method for measuring interest rate risk under non trading accounts

i. Financial assets and liabilities (exclude financial assets and liabilities held by subsidiaries engaged in the banking business)

Financial assets and liabilities that are resulted by interest rate risk are bonds and notes and long-term loans payable. The change in fair value is calculated under assumption of changes in interest rate for 10 basis points (0.1%).

ii. Financial assets and liabilities held by subsidiaries engaged in the banking business

For the financial assets and liabilities in the subsidiaries engaged in the banking business, market risk amount is measured in a change of economic value used the 99th percentile of observed interest rate changes using a year holding period and 5 years of observations. It is used for quantitative analysis to manage risk of change in an interest rate. For calculating the amount of changes, the balances of the financial assets and liabilities are classified in each period. The changes of interest rate in each period are applied. For those currency positions which consists less than 5% of gross asset or liability, upward and downward rate shocks of 200 basis points (2%) is uniformly applied in a parallel move, and changes are being calculated.

10. Gain or loss in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring interest rate risk under non trading accounts

【March 2015】

Interest rate risk under non trading accounts

- i. Financial asset and liability except for those possessed by the Group companies that transact banking business under the assumption of a change in interest rate for 10 basis point (i.e. 0.1%), we anticipate that the market value of "Bonds payable" and "Long-term loans payable" to change approximately 1.7 billion yen
- ii. Financial assets and liabilities possessed by the Group companies that transact banking business under the assumption of a change in interest rate and all the other risks fixed: we anticipate the market value to be reduced by 14.6 billion yen.
