**Basis of consolidated financial statements for the first half ended September 30, 2007**

## 1. Scope of consolidation

Consolidated subsidiaries: 46 companies

*Major companies:*

Daiwa Securities Co. Ltd.  
 Daiwa Securities SMBC Co. Ltd.  
 Daiwa Asset Management Co. Ltd.  
 Daiwa Institute of Research Ltd.  
 Daiwa Securities Business Center Co., Ltd.  
 Daiwa Property Co., Ltd.  
 NIF SMBC Ventures Co., Ltd.  
 Daiwa Securities SMBC Principal Investments Co. Ltd.  
 Daiwa America Corporation  
 Daiwa Securities America Inc.  
 Daiwa Securities SMBC Europe Limited  
 Daiwa Securities SMBC Asia Holding B.V.  
 Daiwa Securities SMBC H.K. Limited  
 Daiwa Securities SMBC Singapore Limited

In consolidated financial statements of the company for the first half year ended September 30, 2007, one company was added to scope of consolidation due to the increase of materiality. One company under the liquidation process was excluded from the scope of consolidation. Each amount of total assets, operating revenues (or sales), net income (corresponding to equity holdings) and retained earnings (corresponding to equity holdings) of non-consolidated subsidiaries has little influence on the consolidated financial statements and has little materiality as a whole, and is therefore excluded from the scope of consolidation.

## 2. Application of equity method

Affiliates applicable of equity method: 6 companies

*Major company:*

Daiwa SB Investments Ltd.

Two companies were added to the scope of equity method due to capital investment. Each amount of net income (corresponding to equity holdings) and retained earnings (corresponding to equity holdings) of both non-consolidated subsidiaries and affiliates inapplicable of equity method has little influence on the consolidated financial statements and has little materiality as a whole, and is therefore excluded from the scope of equity method. For affiliates applicable of equity method with the first half ending other than September 30, 2007, one company prepared tentative financial statements for consolidation purpose as of September 30, 2007, and other companies prepared financial statements for the relevant first half, and those were reflected.

## 3. Fiscal period of subsidiaries

For subsidiaries with the first half ending other than September 30, 2007, the financial statements for the relevant first half are employed and important transactions occurred by discrepancies with closing account date are adjusted for these consolidated financial statements.

## 4. Accounting policies

## (1) Valuation of financial instruments and inventories

## (i) Valuation of trading assets and liabilities

Trading assets and liabilities, including securities and financial derivatives for trading purposes held by a securities company are recorded at fair value.

## (ii) Valuation of non-trading assets and liabilities

The Group examines the intent of holding each securities and classifies those securities as (a) debt and equity securities intended to held for trading by non-securities companies ("trading securities"), (b) debt securities intended to be held to maturity ("held-to-maturity debt securities"), or (c) all other securities not classified in any of the above categories ("available-for-sale securities").

Trading securities are carried at fair value with unrealized gains or losses included in income. Held-to-maturity debt securities are stated at amortized cost.

Available-for-sale securities with market value are stated at market value, based on quoted market prices. Realized gains and losses on sale of such securities are computed using the moving-average cost. Unrealized gains and losses on these securities are reported, net of applicable income taxes, as a separate component of the net assets. Debt in available-for-sale securities for which a market value is not available, are stated at the amortized cost, net of the amount considered not collectible. Equity in available-for-sale securities for which a market value is not available, are stated at the moving-average cost.

Of those securities with no fair value available, share of net income raised by the investments in limited partnerships is reflected on consolidated statements of operations and share of net unrealized profits and losses on securities held by the partnerships is directly posted into net assets. Private equity and other securities held by certain consolidated subsidiaries are categorized in current assets.

(iii) Valuation of other inventories

Cost method determined by the specific identification method is mainly applied.

(2) Depreciation of depreciable assets

(i) Tangible fixed assets

Tangible fixed assets are generally amortized under the straight-line method. The Company and domestic consolidated subsidiaries compute amortization over estimated useful lives as stipulated by Corporation Tax Law of Japan.

(ii) Intangible fixed assets

Intangible fixed assets are generally amortized under the straight-line method. The Company and domestic consolidated subsidiaries compute amortization over estimated useful lives as stipulated by Corporation Tax Law of Japan, and over internally estimated useful lives (5 years) for software of in-house use.

(3) Accounting policies for various provisions

(i) Provision for doubtful accounts

Provisions for doubtful accounts are provided based on the estimated historical default rate for normal loans, and based on individually assessed amounts for doubtful accounts.

(ii) Allowance for possible investment losses

Some consolidated subsidiaries provide the allowances based on estimated losses on private equity and other securities held at the balance sheets date, assessing the financial conditions of investee companies.

(vi) Provision for litigation losses

## **Change in the basis of financial statements for the first half ended September 30, 2007**

(Change in the depreciation method of tangible fixed assets)

In connection with the current corporate tax law reform, the Company and domestic consolidated subsidiaries have changed the depreciation method to that of complied with new corporate tax law for the property and equipment purchased on or after April 1, 2007.

For property and equipment purchased before April 1, 2007, depreciation is computed by the former depreciation method, i.e. property and equipment is depreciated until depreciable limit. However, after such assets have been depreciated to the depreciable limit, the remaining value is amortized over five years in pro rata from the following fiscal year until its book value is reduced to 1 yen. The effect on the consolidated financial statements was immaterial.
