IFFIm Vaccine Bonds for Japanese Investors **~ Increasing Immunisation of Children in the Poorest Countries ~**

Tokyo, 28 March 2013 -- Daiwa Securities Group, the International Finance Facility for Immunisation (IFFIm), the GAVI Alliance and the World Bank jointly announced today the first issuance and sale of “vaccine bonds” for 2013.

The vaccine bonds were denominated in Turkish lira and South African rand with a maturity of five years. The issuance was arranged and distributed by Daiwa Securities Co. Ltd. to Japanese retail and institutional investors, and all the bonds issued were successfully distributed to investors.

This is the fifth issue of IFFIm’s vaccine bonds arranged by Daiwa. Including previous, highly successful issues in March 2008, February 2009, March 2010 and March 2011, the total amount of IFFIm’s vaccine bonds arranged by Daiwa is now around US\$ 1.35 billion equivalent.

IFFIm’s vaccine bonds provide Japanese investors with an opportunity to contribute to IFFIm and the funding of GAVI immunisation programmes for children in developing countries while investing in high credit quality notes.

Daiwa Securities Group actively pursues its commitment to social responsibility by undertaking such Impact Investment initiatives, and vaccine bonds are one such initiative of Daiwa.

“This transaction marks five years of successful support of Japanese savers for IFFIm and of Daiwa’s work with IFFIm,” says IFFIm Board Chair René Karsenti. “IFFIm’s vaccine bonds help GAVI save the lives of children in the poorest countries by increasing their access to immunisation.”

IFFIm raises funds in the international capital markets to accelerate the availability of funds for immunisation programmes and health system strengthening by the GAVI Alliance. IFFIm’s financial base consists of legally binding grant payments (approximately US\$ 6.3 billion) from its nine sovereign donors. The World Bank is IFFIm’s Treasury Manager.

From its inception in 2006, IFFIm has raised about US\$ 3.85 billion equivalent in the capital markets to support GAVI, whose mission is to save children’s lives and protect people’s health by increasing access to immunisation in poor countries.

IFFIm issues bonds in the capital markets, converting the long-term government pledges into immediately available cash resources. This produces a “frontloading” effect ideal for vaccination procurement and delivery, providing GAVI with great flexibility, enhancing the efficiency of its operations and affording predictability for vaccine programmes.

About the GAVI Alliance — www.gavialliance.org

The GAVI Alliance is a public-private partnership committed to saving children's lives and protecting people's health by increasing access to immunisation in developing countries. The Alliance brings together developing country and donor governments, the World Health Organization, UNICEF, the World Bank, the vaccine industry, technical agencies, civil society, the Bill & Melinda Gates Foundation and other private sector partners. GAVI uses innovative finance mechanisms, including co-financing by recipient countries, to secure sustainable funding and adequate supply of quality vaccines. Since 2000, GAVI has financed the immunisation of an additional 370 million children and prevented more than 5.5 million premature deaths. Learn more at www.gavialliance.org and connect with us on Facebook and Twitter.

About the World Bank — www.worldbank.org

The World Bank is a global development cooperative owned by 188 member countries. Its purpose is to help its members achieve equitable and sustainable economic growth in their national economies and to find effective solutions to pressing regional and global problems in economic development and environmental sustainability. The World Bank is also the treasury manager for IFFIm. In that capacity, the World Bank, as IFFIm's agent, manages IFFIm's finances according to prudent policies and standards. This includes IFFIm's funding strategy and its implementation in the capital markets, rating agency and investor outreach, hedging transactions and investment management. The World Bank also coordinates with IFFIm's donors and manages their pledges and payments as well as IFFIm's disbursements for immunisation and health programmes through the GAVI Alliance.

About the Daiwa Securities Group

Daiwa Securities Group Inc., founded in 1902, is one of the largest independent and comprehensive securities company in Japan.
