

# Daiwa Securities Group CSR Report 2010 Overview

## Editorial Policy

The Daiwa Securities Group has been publishing this report annually since 2002 with the aim of clearly disclosing our CSR activities, which are intended to support the creation of a sustainable society. We also use this opportunity to evaluate the company's current status and the challenges it is facing.

For the printed Highlight Edition of the 2010 report, we have narrowed down the content to focus on areas we particularly wish to communicate to as many stakeholders as possible about our ideas and initiatives in an easy-to-understand format.

The Full Edition of the report, which includes CSR initiatives, challenges and goals broken down by stakeholder group, will be available on the Web from September 2010.

Both the highlight and full editions of the report have been produced in line with international guidelines regarding sustainability reports (Global Reporting Initiative; GRI\*).

\* GRI (Global Reporting Initiative): An organization dedicated to proposing and promoting common international guidelines for sustainability reports.
